

MEGHA JOSHI

Experienced statistician with strong background in causal inference. I drive impact and growth by infusing businesses and teams with data-driven insights and scientifically-driven solutions.

EXPERIENCE

2017
|
Present

Graduate Research Assistant

The University of Texas at Austin

📍 Austin, Texas

- Developed generalized boosted models to estimate propensity scores to evaluate the impact of a college preparatory program.
- Integrated large relational datasets containing information on all students in Texas schools from multiple sources. Wrangled the data for analysis.

2018

Graduate Research Assistant

The University of Texas at Austin

📍 Austin, Texas

- Developed propensity score models to evaluate School of Undergraduate Studies programs.
- Created visualizations (R::ggplot) of impact analyses and automated creation of reports using R Markdown.
- Led a workshop on impact assessment.

2015-
2016

Integrated Community Development Intern

A Glimmer of Hope Foundation

📍 Austin, Texas

- Analyzed data related to health, education, water, sanitation, and micro-finance projects carried out by the organization in Ethiopia.
- Developed a method to estimate the number of people who have benefited from the projects.

TEACHING EXPERIENCE

2015
|
Present

Graduate Teaching Assistant

The University of Texas at Austin

📍 Austin, Texas

- Assisted in the following courses: Data Analysis, Simulation, Programming in R; Research Design; and, Statistics in Market Analysis.
- Effectively communicated complex statistical methods to students with little prior background in the field.

EDUCATION

2020
(expected)

The University of Texas at Austin

PhD in Quantitative Methods

📍 Austin, Texas

Thesis: Cluster wild bootstrapping to handle dependent effect sizes in meta-analysis

2014

Bryn Mawr College

BA in Art History and Psychology

📍 Bryn Mawr, Pennsylvania
